Projects

- **Ai-Powered Portfolio Website**
Tech Stack : HTML, CSS/Tailwind ,JavaScript, Open API, Vercel.
A modern personal portfolio with a built-in AI assistant that responds to visitor queries like a virtual interview. Features include dark/light mode toggle, interactive animations, responsive design and downloadable resume. Showcases project work and professional details in a clean UI.
- **Job Application Tracker (MERN Stack)**
Tech Stack: MongoDB, Express.js, React.js, Node.js
A full stack web app to manage job applications with features like status tracking, notes , interview scheduling and filtering by company or role. Helps job seekers stay organized and reduce job search stress..
- **Cybersecurity Awareness Quiz App**
Tech Stack: HTML, CSS, JavaScript
A fun, interactive web app that educates users on basic cybersecurity concepts through timed quizzes. Designed especially for students and beginners to raise awareness about safe internet protocols.
